Subject: ATSDR Inter-Agency Comp Tox Colloquium Proposal

I spoke with Moiz and have a lot more information. This request is specific to the Comp Tox area. I asked about the MOU and he acknowledge there was a general proposal some time ago that fell apart. This one has some similarities however.

The purpose and goal of this group is to coordinate and collaborate across Agencies to advance the science and avoid duplication of effort. In addition they would like to advance the use and application of the methods and tools developed by the Agencies. Questions would be asked such as: 1) what tools and methods are we developing?, 2) how can develop similar platforms so that everyone can use them?. The colloquium would emphasizes the application side of the research.

The letter was sent to the following organizations:

EPA

Ed Ohanian OW
Michelle Burgess OSWER
Rita Schoeny (Retired Risk Assessment Forum) I hope Tom Sinks gets it.
Rusty Thomas
Annette Gatchett (It should have gone to Ken)

NIEHS Linda Birnbaum
NIOSH Scott Dotson
FDA Bill Slicker
Donna Mendrick
Army Laurie Rozell

They hope to convene a meeting in early spring or later winter. The initial meeting would be for each organization or invited member to present an overview of current and planned research. An example would be the same talk that Rusty and Jason gave at SRA.

The letter request a response by the end of Jan. Ken and Lynn I will look to you on how to coordinate and proceed if we choose to participate. Moiz did speak with Rusty at SRA and Rusty was interested in participating. I have not spoken with Ed or Michelle.

Thanks
Annette
